Building Foundations for Families to Thrive

A Symposium for Educators and Families

Wednesday October 6, 13, and 20, 2021

After experiencing the trauma of multiple complexities during 2020, the SCCOE's Parent Engagement Program presents this Social Emotional Learning-themed virtual event. Educators and parents are invited to create a community culture which builds up positive attributes in our children, so they can respond with resilience and thrive.

Register today to receive your Zoom link and access to all the recorded workshops! Attend the virtual event and be eligible for giveaway items from our sponsors!
